

**NEUTRINO**  
**2000**  
Sudbury Canada

# The XIX International Conference on Neutrino Physics and Astrophysics

June 16 - 21, 2000

Laurentian University  
Sudbury, Canada

## FINAL PROGRAM

# CONFERENCE COMMITTEES

## International Advisory Committee

A. Astbury (TRIUMF)	S. Glashow (Harvard)	J. Schneps (Tufts)
J. Bahcall (Princeton)	M. Goodman (Fermilab)	A. Smirnov (Trieste)
B. Barish (Caltech)	F. Halzen (Wisconsin)	H. Sobel (UCI)
E. Beier (Pennsylvania)	F. Khanna (Alberta)	Y. Suzuki (ICRR)
F. Boehm (Caltech)	T. Kirsten (Heidelberg)	Y. Totsuka (ICRR)
R. Bond (Toronto)	G. Marx (Budapest)	F. Vannucci (Paris)
T. Bowles (Los Alamos)	P. Monacelli	F. von Feilitzsch
S. Cooper (Oxford)	(Gran Sasso)	(Munich)
J. Cronin (Chicago)	A. Morales (Zaragoza)	K. Winter (CERN)
A. Dar (Technion)	K. Nishikawa (KEK)	G. Zatsepin (Moscow)
J. Ellis (CERN)	M. Roos (Helsinki)	
E. Fiorini (INFN -Milan)	B. Sadoulet (Berkeley)	

## Local Organizing Committee

A. McDonald (Queen's)	D. Earle (Chalk River)	R. Ollerhead (Guelph)
<i>Chair</i>	M. Easton (Sudbury)	B. Robertson (Queen's)
D. Hallman (Laurentian)	P. Finley (Sudbury)	T. Roy (Science North)
<i>Secretary</i>	D. Hahn (Brookhaven)	J. Simpson (Guelph)
P. Lamoureux (NRC)	A. Hallin (Queen's)	R. Stokstad
<i>Conference Manager</i>	C. Hargrove (Carleton)	(Lawrence Berkeley)
E. Beier (Pennsylvania)	N. Jelley (Oxford)	C. Virtue (Laurentian)
T. Bowles (Los Alamos)	K. Langille (Sudbury)	C. Waltham
P. Doe (Washington)	J. Law (Guelph)	(British Columbia)

# CONFERENCE SECRETARIAT

**NEUTRINO**  
**2000**  
Sudbury, Canada

## Welcome To Neutrino 2000

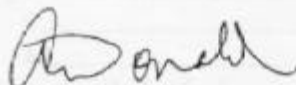

On behalf of the Conference Organizing Committee, I would like to welcome all delegates and accompanying persons to the Neutrino 2000 conference, to Canada, and to the Sudbury area. We are very excited about the strong international response to the conference and hope that everyone will enjoy the scientific presentations, the opportunities for interaction with other delegates and the conference social program.

Members of the SNO collaboration will be pleased to escort you on tours of the Observatory at the times specified throughout the week. The people of Sudbury have been very supportive of the SNO project and of the local science centre, Science North. We are sure that you will enjoy your visit to this interesting region of Canada, and the local hospitality.

We would like to extend our thanks to the many sponsors who have supported the conference and will be your hosts at a number of the social events.

We hope that this will be a week of very interesting discussions in this rapidly developing area of science as well as a series of pleasant social experiences.

Enjoy!

Art McDonald  
*Conference Chair*

---

## To Neutrino 2000 Participants:

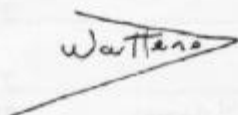

On behalf of the entire university community, it gives me great pleasure to extend you a warm welcome to our beautiful campus! Our proximity to The Sudbury Neutrino Observatory, to a world-renowned mining area and forest products industry and to the lakes and wilderness of northern Ontario give Laurentian unique and exciting activities and challenges.

As a member of the Sudbury Neutrino Observatory (SNO) Institute, Laurentian University is proud to co-host, with SNO, the XIX International Conference on Neutrino Physics and Astrophysics - NEUTRINO 2000. Conference participants will find delight in the sights and sounds that our northern region has to offer, and I hope your stay on our campus is enjoyable.

Dr. Art McDonald, Conference Chair, Dr. Doug Hallman, Local Arrangements Chair and members of both the International Advisory Committee and Local Organizing Committee are to be commended for their conscientious dedication and commitment to the success of this important conference.

We wish you a productive and insightful conference. I look forward to meeting you at the Conference Banquet!

Yours sincerely,

Dr. Jean Watters  
President

Laurentian University  
Université Laurentienne

## A MESSAGE OF WELCOME

*"The important thing is not to stop questioning. Curiosity has its own reason for existing. One cannot help but be in awe when one contemplates the mysteries of eternity, of life, of the marvelous structure of reality. It is enough if one tries merely to comprehend a little of this mystery every day."*

**ALBERT EINSTEIN**

It is with great pride and pleasure that we welcome delegates and their guests to Sudbury, Ontario, Canada -- host city for *Neutrino 2000*, the 19<sup>th</sup> International Conference on Neutrino Physics and Astrophysics.

What a tremendous opportunity for our community to showcase its internationally-acclaimed accomplishments in land reclamation, mining automation, cancer treatment, and of course, scientific discovery.

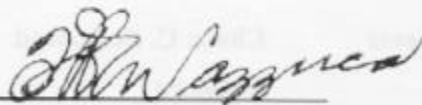

What a tremendous opportunity for you as delegates to network with 350 senior scientists from more than 30 countries, to participate in study tours and discussions, and to share ideas and papers on the latest developments in the field of neutrino research.

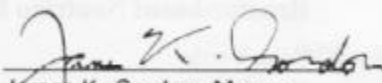

What a tremendous opportunity for both you and your accompanying guests to experience firsthand the natural beauty, diverse culture and warm hospitality that make the Sudbury experience so unique.

This conference is being hosted by Laurentian University and the Sudbury Neutrino Observatory (SNO), two institutions that have received standing ovations on the world stage - Laurentian for its expertise in distance education; SNO for its high-level scientific research.

The Neutrino Observatory is a multi-million dollar operation that provides tangible proof not only that neutrinos exist, but perhaps even more amazing, that government at all levels and the private sector can collaborate in a positive and productive manner.

We continue to work together as a community to develop a progressive and prosperous region in this third millennium, and we are proud to welcome the world to our home.

  
Frank R. Mazzuca, Chair  
Regional Municipality of Sudbury

  
James K. Gordon, Mayor  
City of Sudbury

# SCIENTIFIC PROGRAM

Friday, June 16

**DAY 1:            OPENING, SOLAR NEUTRINOS, REACTOR NEUTRINOS**

<b>Session 1:</b>	<b>Opening Lectures</b>	<b>Chair: G. Ewan</b>
09:00–09:15	Welcoming Remarks	
09:15–09:40	Opening Presentation	<i>E. Witten</i>
09:40–10:05	IUPAP Centennial Speaker Astrophysical Neutrinos in the 20 <sup>th</sup> Century and Beyond	<i>J.N. Bahcall</i>
<b>10:05–10:25</b>	<b><i>Coffee Break - Fraser Cafeteria</i></b>	
<b>Session 2:</b>	<b>Solar Neutrino Observations</b>	<b>Chair: R. Moessbauer</b>
10:25–10:50	SNO	<i>A. McDonald</i>
10:50–11:15	Super-Kamiokande	<i>Y. Suzuki</i>
11:15–11:35	SAGE	<i>V. Gavrin</i>
11:35–11:55	GNO	<i>E. Bellotti</i>
11:55–12:15	Homestake	<i>K. Lande</i>
<b>12:15–13:50</b>	<b><i>Lunch - Great Hall</i></b>	
		<b>Chair: T. Kirsten</b>
13:50–14:10	BOREXINO	<i>G. Ranucci</i>
14:10–14:35	Future Solar Neutrino Detectors	<i>F. von Feilitzsch</i>
<b>Session 3:</b>	<b>Solar Neutrinos: Theory &amp; Analysis</b>	<b>Chair: E. Akhmedov</b>
14:35–15:00	Review of Solar Models and Helioseismology	<i>S. Turck-Chieze</i>
15:00–15:25	Global Analysis of Solar Neutrino Data	<i>M. Gonzalez-Garcia</i>
<b>15:25–15:45</b>	<b><i>Coffee Break - Fraser Cafeteria</i></b>	
<b>Session 4:</b>	<b>Reactor-based Neutrino Experiments</b>	<b>Chair: C. Bemporad</b>
15:45–16:05	Palo Verde	<i>G. Gratta</i>
16:05–16:25	KamLAND	<i>A. Piepke</i>
16:25–16:45	MUNU	<i>C. Brogini</i>
<b>Session 5:</b>	<b>Contributed Papers</b>	
16:45–17:00	ORLAND	<i>F. Avignone</i>
17:00–17:15	KRASNOYARSK	<i>L. Mikaelyan</i>

**Saturday, 17 June**

**DAY 2:                   ATMOSPHERIC & ACCELERATOR NEUTRINOS**

**Session 6:               Atmospheric Neutrinos I: Results                   Chair: T. Kajita**

09:00–09:25	Super-Kamiokande	<i>H. Sobel</i>
09:25–09:45	Soudan-2	<i>T. Mann</i>
09:45–10:05	MACRO	<i>B. Barish</i>
10:05–10:25	Baksan	<i>S. Mikheyev</i>

**10:25–10:45           Coffee Break - Fraser Cafeteria**

**Chair: T. Gaisser**

10:45–11:05	Future Atmospheric Neutrino Detectors	<i>A. Geiser</i>
-------------	---------------------------------------	------------------

**Session 7:               Atmospheric Neutrinos II: Theory/Analysis**

11:05–11:30	Review of Sources of Atmospheric Neutrinos	<i>P. Lipari</i>
11:30–11:55	Analysis of Oscillations of Atmospheric Neutrinos	<i>E. Lisi</i>

**11:55–13:40           Lunch - Great Hall**

**Session 8:               Accelerator-based Neutrino Oscillation Experiments**

**Chair: V. Matveev**

13:40–14:00	CHORUS	<i>L. Ludovici</i>
14:00–14:20	NOMAD	<i>M. Mezzetto</i>
14:20–14:40	KARMEN	<i>K. Eitel</i>
14:40–15:00	LSND	<i>G. Mills</i>
15:00–15:20	K2K	<i>K. Nakamura</i>

**15:20–15:40           Coffee Break - Fraser Cafeteria**

**Chair: E. Bettini**

15:40–16:00	BOONE	<i>A. Bazarko</i>
16:00–16:20	MINOS	<i>S. Wojcicki</i>
16:20–16:50	ICANOE/OPERA	<i>A. Rubbia</i>

**Session 9:               Accelerator-based Neutrino Measurements           Chair: E. Bettini**

16:50–17:10	NUTEV	<i>K. McFarland</i>
17:10–17:30	DONUT	<i>B. Lundberg</i>

## Sunday, 18 June

### DAY 3: NEUTRINO FACTORIES, DOUBLE BETA DECAY, NEUTRINO MASS; OVERALL THEORETICAL IMPLICATIONS

#### Session 10: Accelerator-based Neutrino Measurements, Continued Chair: E. Beier

09:00–09:25	Neutrino Factories: Theoretical Motivation	<i>A. De Rujula</i>
09:25–09:45	Neutrino Factories: Accelerator Facilities	<i>E. Keil</i>
09:45–10:05	Neutrino Factories: Experimental Facilities	<i>H. Schellman</i>

#### Session 11: Double Beta Decay Chair: H. Klapdor-Kleingrothaus 10:05–10:30 Review of Double Beta Decay Experiments to Date *H. Ejiri*

#### 10:30–10:50 *Coffee Break - Fraser Cafeteria*

10:50–11:15	Review of Future Experiments	<i>E. Fiorini</i>
-------------	------------------------------	-------------------

#### Session 12: Neutrino Mass Direct Searches Chair: M. Baldo Ceolin

11:15–11:25	The Mainz Neutrino Mass Experiment	<i>C. Weinheimer</i>
11:25–11:45	The Troitsk Neutrino Mass Experiment	<i>V. Lobashev</i>
11:45–12:05	Tau Mass	<i>M. Roney</i>
12:05–12:30	Microcalorimeter Measurements	<i>F. Gatti</i>

#### 12:30–14:00 *Lunch - Great Hall*

#### Session 13: Overview & Implications of Neutrino Oscillation Results Chair: H. Murayama

14:00–14:25	Neutrino Properties	<i>B. Kayser</i>
14:25–14:50	Neutrino Mass Spectrum and Lepton Mixing	<i>A. Smirnov</i>
14:50–15:15	Origins of Neutrino Mass	<i>R. Mohapatra</i>
15:15–15:40	Neutrinos and Extra Dimensions	<i>K. Dienes</i>

#### 15:40–16:00 *Coffee Break - Fraser Cafeteria*

#### Session 14: Poster Session (Room F228) 16:00–17:20 Authors of Contributed Posters will be present for discussion.

---

## Monday, 19 June

**Session 15: Public Lecture – Science North INCO Cavern**  
20:00–21:00 Neutrinos, Galaxies and Science Education *L. Lederman*

---

## Tuesday, 20 June

### DAY 4: SUPERNOVAE; COSMOLOGY & DARK MATTER

**Session 16: Supernova Neutrinos** **Chair: P. Vogel**

09:00–09:25 Supernova Neutrino Detection *K. Scholberg*  
09:25–09:50 New Results in Core Collapse Supernova Theory *A. Mezzacappa*  
09:50–10:15 Neutrinos and the Supernova Origin of the Elements *Y. Qian*  
10:15–10:40 Neutrino Effects in Stellar Cooling *M. Prakash*

**10:40–11:00** *Coffee Break - Fraser Cafeteria*

**Session 17: Dark Matter Searches** **Chair: H. Robertson**

11:00–11:25 Review of Direct Dark Matter WIMP Experiments to Date *D. Akerib*  
11:25–11:40 DAMA *R. Bernabei*  
11:40–12:05 Review of Future Direct Dark Matter WIMP Experiments *V. Zacek*

**12:05–13:45** *Lunch - Great Hall*

**Chair: A. Morales**

13:45–14:10 Indirect Detection of Dark Matter *P. Gondolo*  
14:10–14:35 Axions: Review of Experiment & Theory *K. Van Bibber*

**Session 18: Dark Matter & Cosmological Structures** **Chair: P. Langacker**

14:35–15:00 Neutrinos and Structure of the Early Universe or Cosmological Parameters *M. Tegmark*  
15:00–15:25 Dark Matter and Galaxy Formation *J. Navarro*

**15:25–15:45** *Coffee Break - Fraser Cafeteria*

15:45–16:10 Baryonic Dark Matter *K. Griest*  
16:10–16:35 Cosmic Background Radiation *R. Bond*  
16:35–17:10 Cosmological Constant and Dark Energy *M. Turner*

**Session 19: Contributed Papers**  
17:10–17:25 Not Enough Stellar Mass MACHOS in the Galactic Halo *A. Milsztajn*

## Wednesday, 21 June

### DAY 5:            **ULTRA-HIGH ENERGY NEUTRINOS; COSMOLOGY & ASTROPHYSICS; CONFERENCE SUMMARY**

#### **Session 20:            Ultra-High Energy Neutrino Measurements    Chair: R. Stokstad**

09:00–09:20	AMANDA	<i>S. Barwick</i>
09:20–09:40	NESTOR	<i>L. Resvanis</i>
09:40–10:00	ANTARES	<i>L. Thompson</i>
10:00–10:20	Baikal	<i>G. Domogatsky</i>

#### ***10:20–10:40            Coffee Break - Fraser Cafeteria***

**Chair: A. Dar**

10:40–11:05	Review of Future Ultra-High Energy Neutrino Experiments	<i>C. Spiering</i>
11:05–11:30	Theoretical Predictions for Ultra-High Energy Neutrinos	<i>R. Gandhi</i>
11:30–11:55	Neutrinos and Ultra-Energetic Cosmic Rays	<i>T. Weiler</i>

#### ***11:55–13:40            Lunch - Great Hall***

#### **Session 21:            Other Astrophysics & Cosmology            Chair: M. Roos**

13:40–14:05	Highest Energy Cosmic Rays	<i>A. Letessier-Selvon</i>
14:05–14:30	High Energy Gamma Rays	<i>R. Mukherjee</i>
14:30–14:55	Lepton Asymmetry and Neutrino Oscillations	<i>R.R. Volkas</i>
14:55–15:20	Gamma Ray Bursters	<i>E. Waxman</i>

#### **Session 22:            Closing Session            Chair: G. Marx**

15:20–15:55	Conference Summary	<i>J. Ellis</i>
-------------	--------------------	-----------------

## **EXHIBITORS**

Exhibitors are located in the Fraser Cafeteria, on the second floor of the Fraser Building.

Those companies or organizations exhibiting during the conference are listed below:

Wiener Plein & Baus Corp.  
Struck Innovative Systeme GmbH  
Reynolds Polymer Technology, Inc.  
Elsevier Science Inc.  
Region of Sudbury / Sudbury Regional Development Corp.  
INCO Limited

### **Exhibit Hours**

Thursday	June 15	15:00–22:00h
Friday	June 16	08:30–16:00h
Saturday	June 17	08:30–16:00h
Sunday	June 18	08:30–16:00h
Tuesday	June 20	08:30–16:00h
Wednesday	June 21	08:30–14:00h

## **CONTRIBUTED PAPERS**

The contributed papers are in Room F227 (please follow the signs).  
Titles are listed on pages 10–13.

## **POSTERS**

The posters are located in Room F228 (please follow the signs).  
Titles are listed on pages 14–16.

<b>Posting Number</b>	<b>Abstract Title</b>	<b>Author(s)</b>
<b>C01 to C40: Theory</b>		
C01	Genuine CP Violation in a Neutrino Factory	M. Tanimoto
C02	Models of Neutrino Masses in Grand Unified Theories	G. Altarelli, F. Feruglio, I. Masina
C03	Measurement of the Mu and Tau Neutrino Masses from the Next Galactic Supernova	J.F. Beacom, P. Vogel
C04	Neutrino Magnetic Moments in the Presence of Mixing and a New Limit	P. Vogel, J.F. Beacom
C05	Bremstrahlung of Flavor-Degenerate Charged Lepton-Antilepton Pairs by Neutrinos (Antineutrinos) in the Field of Nuclei	L. Chatterjee, M.R. Strayer, J.S. Wu
C06	Flavor-Degenerate Pair Production in Neutrino-Nucleus Collisions	L. Chatterjee, M.R. Strayer, J.S. Wu
C07	Calculation of Atmospheric Neutrino Fluxes and Event Rates with the Fluka Model	G. Battistoni, A. Ferrari, P. Sala, T. Montarul, T. Rancati, A. Rubbia
C08	Tau Neutrinos Underground	S. Iyer, M.H. Reno, I. Sarcevic
C09	Is It Possible to Determine the S-Factor of the HEP Process from a Laboratory Experiment?	W.M. Alberico, J. Bernabeu, S.M. Bilenky, W. Grimus
C10	On a Possibility to Determine the S-Factor of the HEP Process in Experiments with Thermal (Cold) Neutrons	W.M. Alberico, S.M. Bilenky, W. Grimus
C11	Long-wavelength Neutrino Oscillations Induced by a Breakdown of Relativity and the Solar Neutrino Problem	A.M. Gago, H. Nunokawa, R. Zukanovich Funchal
C12	Seesaw Model and Its Lorentz Group Formulation	T.K. Kuo, Guo-Hong Wu, Shao-Hsuan Chiu
C13	Day-Night Effect Predictions for the SNO Detector	M. Maris, S.T. Petcov
C14	The Super-Kamiokande Day-Night Effect Data and the MSW Solutions of the Solar Neutrino Problem	M. Maris, S.T. Petcov
C15	Prospects for Observations of Ultra-High Energy Tau Neutrinos	A. Husain
C16	Neutrino Mass Matrix with Cyclic Permutation Invariant Form	Y. Koide
C17	Effective Majorana Neutrino Masses	K. Zuber
C18	Explicit SO(10) Supersymmetric Grand Unified Model	C.H. Albright, S.M. Barr
C19	Ultrahigh Energy Neutrinos and the Highest Energy Cosmic Rays	G. Domokos, S. Kovesi-Domokos
C20	Extra Quark-Lepton Generations and Precision Measurements	M. Maltoni, V.A. Novikov, A.N. Rozanov, M.I. Vysotsky
C21	Physics Potential of an ICANOE-like Detector at a Neutrino Factory	A. Bueno, M. Campanelli, A. Rubbia
C22	Matter Effects on Neutrino Oscillations in Long Baseline Experiments	I. Mocioiu, R. Shrock
C23	Not Enough Stellar Mass MACHOS in the Galactic Halo	A. Milsztajn, T. Lasserre
C24	Long-range Forces in Relic Cosmic Backgrounds	F. Ferrer, J.A. Grifols

# CONFERENCE INFORMATION

## On-Site Registration

The Conference Secretariat will operate a registration and information desk located in the Fraser Science Building at Laurentian University on the following dates and times:

Thursday, June 15	1500 – 2200 h
Friday, June 16	0700 – 1800 h
Saturday, June 17	0700 – 1800 h
Sunday, June 18	0700 – 1800 h
Tuesday, June 20	0700 – 1800 h
Wednesday, June 21	0700 – 1500 h

## Travel and Tours Desk

The Travel and Tours Desk is operated by Carlson Wagonlit / Seven Seas Travel. Using a “Remote Access System”, Carlson Wagonlit / Seven Seas Travel will provide delegates with “on-demand” services for changing hotel accommodation, airline travel, or tours. Please bring your travel questions to the Travel and Tours Desk during the operating hours of **08:30 – 17:30h** each day throughout the conference, except for Monday, June 19. If you need to contact the Travel and Tours Desk during non-business hours or from another location, please telephone 523-8600 (local).

## Airport Shuttle Service

Carlson Wagonlit / Seven Seas Travel is pleased to offer conference delegates a shuttle service from the airport at the start of the conference, and back to the airport for return flights. The price for the two-way shuttle is \$34 CDN. Carlson Wagonlit / Seven Seas Travel will operate a desk at the airport on June 13, 14, and 15 and will be able to provide assistance to arriving delegates who have booked their air travel or the airport shuttle through Carlson Wagonlit / Seven Seas Travel.

## Shuttles Returning to the Airport

Please contact the Travel and Tours Desk if you are interested in the return-to-airport shuttle and have not booked this service prior to arrival in Sudbury.

For all delegates who have booked the airport shuttle service with Carlson Wagonlit / Seven Seas Travel, please note that, to arrange a trouble-free return to the airport at the end of your stay at the conference, all delegates need to provide the following information to the Travel and Tours Desk **by 15:40h on Saturday, June 17** (the end of the afternoon coffee break): **Name, Departure Location (specify hotel or University), and time of departing flight**. With this information, a schedule will be posted in the Registration Area and hotel lobbies, listing the airport shuttle departure time for specific flights.

## **Transportation**

### **On-site Parking**

The parking lot in front of the Fraser Science Building, Laurentian University, is available for parking by conference delegates at no charge.

### **Shuttle Bus**

A shuttle service for delegates will be provided by the conference from the official conference accommodations only (Ramada Inn, Travelodge, Travelway Inn, Four Points, and Laurentian University Residence). The shuttle schedule is included in the delegate packages, and will be posted in the Fraser Science Building lobby (Registration Area) at Laurentian University, and at the hotels. Shuttle transportation will be provided to and from the sessions and hotels in the morning, at lunch, at the end of the day's sessions, and for scheduled evening events.

### **Audio-Visual Equipment**

Two overhead projectors, two 35 mm slide projectors, flipchart and one full multi-media projector for Powerpoint presentations will be provided at all sessions. Presenters who require additional equipment other than the equipment being provided by the Conference had to contact the Conference Secretariat by June 1, 2000.

For those delegates using Powerpoint for their presentations, please register on the sign-up sheet at the Registration Desk.

Facilities and assistance with transparencies and photocopying will be provided by Conference personnel.

### **Computer Terminals**

Computer terminals and printers will be available for use by delegates for checking e-mail or accessing overheads. The computer room is located on the third floor of the Fraser Building (please follow the signs). The operating hours for the terminal room will be posted at the room and in the Registration Area.

### **Lunch**

Laurentian University is some distance from area restaurants. Although the shuttle bus will operate during the lunch break, time is limited for delegates to travel back to their hotels and eat there or nearby. For the convenience of the conference delegates, a buffet lunch, including a number of food selections, is available at Laurentian University's Great Hall at a cost of \$15.

### **On-site Purchase of Lunch Tickets**

A limited number of tickets will be available for purchase at the Registration Desk for \$15 CDN per lunch. If, during the conference, you plan to purchase tickets for lunch on campus, please note the following deadlines.

For lunch on Friday, June 16

10:30h on Friday, June 16

For lunch on Saturday, June 17 & Sunday, June 18

15:45h on Friday, June 16

For lunch on Tuesday, June 20 & Wednesday, June 21

16:00h on Sunday, June 18

## Messages

Individuals wishing to contact registered delegates at the conference venue may telephone (705) 675-1151 ext. 2222 to leave a message during regular conference business hours. There is no paging of delegates, but all messages will be posted at a message centre near the conference registration desk located outside the plenary room.

## Foreign Exchange and Banking Facilities

Foreign exchange and regular banking services are available in all downtown banks. Hours are Monday to Friday, 09:00 to 16:00h. Exchange rates can be found at [www.xe.net/currency](http://www.xe.net/currency).

Many banks are located within walking distance of the conference hotels and all have automatic teller machines which can be accessed 24 hours a day by account holders and some credit cards. There is also an automatic teller machine at the University, near the Great Hall (where lunch is served).

## Taxes

A federal tax (GST) of 7% is applied to most goods and services in Canada and is similar to the value-added taxes (VAT) that exist in Europe. In addition, a provincial tax in Ontario of 8% is also applied to most goods and services. Non-residents can apply for a GST rebate on most goods purchased for use outside Canada.

Details are included in the booklet entitled “GST Rebate for Visitors” published by Revenue Canada, Customs and Excise, which will be available at the conference registration desk.

## Tipping in Canada

In Canada, it is customary to tip for services such as restaurants, bars and pubs, taxis and hairdressers, usually 15%, although the amount can range from 10% to 20% at the discretion of the person paying the bill. Always check whether a “service charge” or “gratuity” was included in a restaurant bill, especially if paying by credit card, as this is the tip. Bellhops, doormen, porters, etc., at hotels, airports and railway stations are generally paid \$1.00 per item of luggage.

## Liability

The conference fees **DO NOT** include provisions for the insurance of participants against personal injuries, sickness, theft or property damage. This also applies to any event held in conjunction with the official conference program. Participants and accompanying persons were advised to arrange for insurance they consider necessary. The Conference Organizing Committee, the Secretariat, sponsors and agents acting on behalf of the conference do not assume any responsibility for loss, injury or damage to persons or belongings, whatever their cause may be.

# SOCIAL PROGRAM

Shuttle bus transportation is provided for all events listed here from official conference accommodation only. Please wear your conference badge to all social events.

## Registration and Refreshments

The registration desk will be open from 15:00 to 22:00h on Thursday, June 15 at the Fraser Science Building, Laurentian University. Refreshments (coffee, tea, etc.) will be available in the Fraser Cafeteria, one floor above the registration area. From 18:00 to 20:00h, a bar will be open and light snacks will be available. Come then and see who has arrived for the conference.

## Refreshment Breaks

Refreshments will be provided before the morning sessions, at mid-morning, and at mid-afternoon each day of the conference.

## Welcoming Reception

A reception will be held at Science North, Sudbury's interactive science centre, for all registered delegates and registered accompanying guests from 18:30 to 22:00h on Friday, June 16. This reception is co-sponsored by the Regional Municipality of Sudbury, the City of Sudbury, and Science North. Cocktails will be available from 18:30h. After welcomes (at 19:00h) by representatives of the sponsors and the conference committee, delegates will be free (at 19:30h) to visit the exhibit areas of Science North, enjoy dinner (included) in one of several dining areas, and, after dinner (at 20:30h), enjoy several local entertainers.

A ticket for this event is included in the registration package: please bring your ticket to Science North. There is also a map in the registration package which will help you find your way around Science North during the evening. Dress: casual.

## Concert

On Sunday, June 18 at 20:00h in the Fraser Auditorium, Fraser Science Building, Laurentian University, a concert, *Jazz in a Classical Key*, featuring music from Debussy to Fats Waller, will be presented by well-known clarinetist James Campbell, pianist Gene Di Novi, and bassist Dave Young. The concert will last approximately 2 hours.

A post-concert reception will be held in the Fraser Cafeteria, hosted by Laurentian University and INCO Ltd. The reception will conclude by 23:00h.

A ticket for this event is included in the registration package: please bring your ticket to the concert. Dress: casual.

## Mid-Conference Excursions

Three exciting day-long excursions have been organized for all registered delegates and accompanying guests (see detailed descriptions on the next page).

## Public Lecture

On Monday, June 19, at 20:00h in the Science North INCO Cavern, a public lecture will be presented by Leon Lederman. Tickets are available to conference delegates. Delegates who are interested in attending this lecture are requested to obtain a ticket from the Registration Desk by 14:00h on Saturday, June 17.

## Conference Banquet

On the evening of Tuesday, June 20, at the Ramada Inn, a conference banquet and evening program have been arranged for delegates and accompanying guests from 18:30 to 22:00h. Cocktails are from 18:30 to 19:15h; we request delegates be seated by 19:30h. The menu has been designed to showcase Canadian cuisine, and we hope the delegates will enjoy the culinary treats prepared for them. Wine has been chosen to accompany the dinner, sponsored, in part, by Air Ontario. Music will be provided during dinner by the Sudbury Symphony String Quartet. After dinner entertainment will be performed by Philip Candelaria, Paul Dunn, and Sue Martinelli.

A ticket for this event is included in the registration package: please bring your ticket to the Ramada Inn. Dress: business.

## Sudbury Neutrino Observatory Tours

Underground visits to the laboratory will involve the wearing of mine coveralls (provided) and a 1 km walk to and from the SNO site. Groups are limited to 40 participants for each tour, but, due to overwhelming demand from delegates, **all** departure times have been modified. Please note the revised departure times for tours. Persons with medical or physical restrictions should contact the Registration Desk. Transportation from conference hotels or Laurentian University will be provided, as listed below.

				Departure Point	Hotel Return
1.	Thursday, 15 June	Group A	10:00	(pickup at hotels)	16:00h
2.	Thursday, 15 June	Group B	16:30	(Laurentian)	21:45h
3.	Saturday, 17 June	Group C	17:30	(Laurentian)	22:00h
		Group D	18:30	(pickup at hotels)	23:30h
4.	Wednesday, 21 June	Group H	14:00	(Laurentian)	19:45h
5.	Thursday, 22 June	Group I	07:15	(pickup at hotels)	12:30h
6.	Thursday, 22 June	Group J	10:00	(pickup at hotels)	16:00h

### NOTES:

Please check your registration package to verify which group you are assigned to. Please note the return times are approximate.

# MID-CONFERENCE EXCURSIONS

## Monday, June 19

A choice of a one-day excursion is included in the registration fee of all delegates and accompanying guests. (*All excursions offer highway coach transportation and lunch*).

### **MC-1      Manitoulin Island Historical Culture Tour**

This excursion will visit some of the natural features of Manitoulin Island in Lake Huron, west of Sudbury, the largest freshwater island in the world. It will highlight the rich aboriginal traditions which are being passed from one generation to the next. First is a visit to Wikwemikong Indian Reserve. Lunch is in West Bay, and then, a short distance from the lunch location, a visit to the new historical and native craft cultural centre. Here will be a demonstration of the traditional Pow Wow. Stops will be included at galleries and shops to purchase artwork or memorabilia.

Tour includes: return transportation from Sudbury, lunch, admissions, services of Manitoulin Island guides, and a group co-ordinator. Departure time from hotels: 07:30h; return to Sudbury approximately 18:00h.

### **MC-2      Georgian Bay – 30,000 Islands Cruise**

This excursion will begin with a 90-minute bus trip south from Sudbury to Parry Sound. There, the group will embark on the triple-decked *The Island Queen* sightseeing boat for a 3-hour cruise along the narrow channels and waterways of the 30,000 Islands of Georgian Bay. After the cruise, the group will have lunch, and then visit the West Parry Sound District Museum. The Museum features works of art and displays of logging, shipping, and life in this unique part of Canada, and, from time to time, also features special exhibits.

Includes: return transportation from Sudbury, cruise, lunch, admissions, services of a group co-ordinator. Departure time from hotels: 07:30h; return to Sudbury approximately 18:00h.

### **MC-3      Sudbury Neutrino Observatory and Sudbury Region**

Tours to the Sudbury Neutrino Observatory, located about 30 minutes west of Sudbury 2 km underground at INCO's Creighton Mine, are planned throughout the conference (see separate schedule). This mid-conference excursion is an option for some delegates who may not be able to participate in one of the other tours. A lunch and half-day tour of the Sudbury region includes a visit to scenic Onaping Falls and the A.Y. Jackson Lookout. A short, self-guided walking tour at the Lookout explains some of the geology of the area. Due to overwhelming demand, the schedule for these tours has been modified, as each tour can only accommodate 40 visitors.

Please check your registration package for information as to which MC-3 group you are in.

Departure times (from hotels):

Group E      07:00h, return to hotels approximately 17:15h.

\*Group F      10:00h, return to hotels approximately 16:30h

Group G      09:00h, return to hotels approximately 19:45h

\* Group F please note that due to time restrictions, only the SNO tour portion is provided to this group's participants.

the group will travel to Onaping Falls to the A.Y. Jackson Lookout, named for the artist from the Group of Seven who painted the views from here. A short, self-guided walking tour explains

Costs: \$ 79.00 (includes transportation, lunch, admissions to all venues, taxes)
